

## RADBOUD RESTORATION

## RESTORATION OF YOUR OLD-TIMER

**R**adboud Restoration specialises in the restoration of old-timers. Especially true classics (Vintacars) of the first half of the twentieth century are restored to their original splendour with real craftsmanship. Beside the reneof panels (see the section “tailor-made panels”) it is also possible to restore parts of your old-timer. The best and most cost-effective solutions will be determined in close consultation with the client.

## SPECIALITIES

**W**e specialise in car panel repairs and manufacturing at the highest level. Our activities in this area are not restricted to the ‘usual’ work but are much more comprehensive. We use special welding techniques such as MIG and TIG on various kinds of steel and aluminium. The production of various parts in all shapes and sizes is a real challenge for us. For any type of restoration problem, please do not hesitate to contact us. We are happy to think along with you to find a creative solution.

# For classic cars

A photo gallery of previous restoration projects can be found at our website:  
[www.radboudrestoration.nl](http://www.radboudrestoration.nl).

## TAILOR-MADE PANELS

**F**or many classic cars, and especially the rare ones, it is no longer possible to order ready-made panels. Only if you are very lucky, you might be able to find car parts for your old-timer hidden in an old remote barn somewhere or get a hold of some at an auction. And if you do find the desired car parts, you have to wonder about their quality. Do you recognise these problems? If you wish to avoid long and arduous searching and want to be sure that you get high quality, then consider letting us make your panel. For a nice price you will get a brand new panel that will last for many years. Of course, the price depends on the shape and size of the panel.

## JAGUAR C-TYPE REPLICA

**T**he beginning of a dream...

Since the start of Radboud Restoration in 1998, owner Radboud Wokke has been dreaming of building his own car.

To start making this dream come true, Radboud has begun building a replica of the Jaguar C-type. He recently came into the possession of original moulds for this very special car.

In his spare time, Radboud is building up this car and we expect to be seeing him driving the car within the next few years.

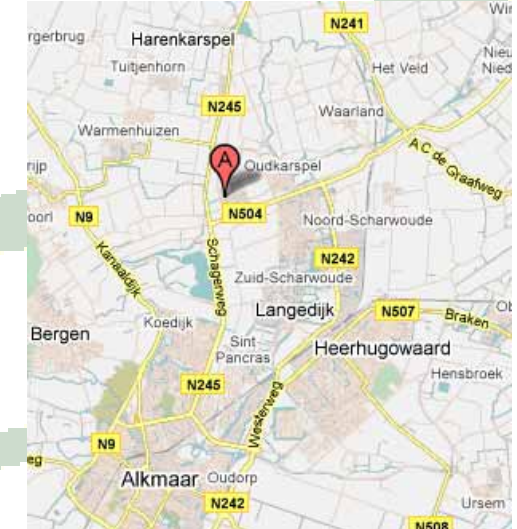

If you wish to monitor his progress, you can visit our website: [www.radboudrestoration.nl](http://www.radboudrestoration.nl)

## CONTACT INFORMATION

**I**f you want more information about Radboud Restoration, visit our website: [www.radboudrestoration.nl](http://www.radboudrestoration.nl).
